# ABOUT US

Starting as a bamboo trading enterprise founded by Sh. Amritlal Gupta in 1962, our company has experienced remarkable evolution over the decades. A pivotal moment came in 1985 when Mr. Rakesh Gupta joined, driving significant expansion. By 1995, we ventured into eucalyptus trading, and in 2008, we established a prominent presence in the wood trading industry with the launch of Jaimata Plywood Company, under the leadership of Satish and Sanjeev Gupta.

The third generation, led by Shubham Gupta, introduced modernization and innovation, culminating in the establishment of a Recon manufacturing plant in 2022. Today, we proudly produce high-quality plywood, block boards, flush doors, and shuttering ply, continuing our commitment to excellence and fostering strong client relationships.

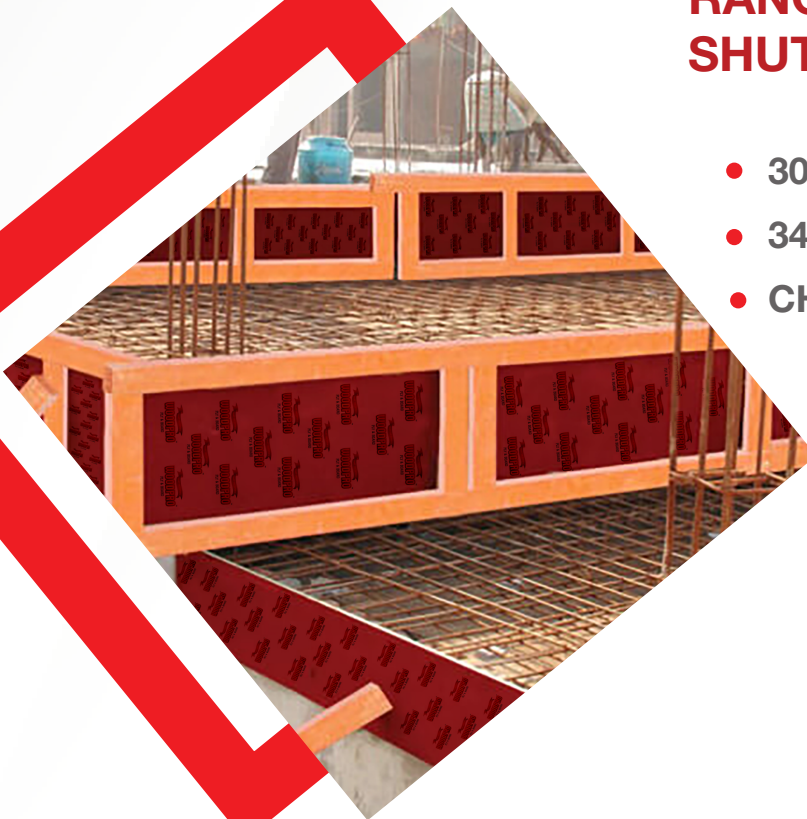

# SHUTTERING PLYWOOD

At JAI MATA PLYWOOD, we proudly offer premium shuttering plywood engineered for the most demanding construction projects. Designed to excel in durability and weather resistance, our plywood endures even the harshest conditions, ensuring your formwork remains robust and dependable.

With ease of use as a standout feature, our plywood provides a practical and efficient solution for any construction site. Trust JAI MATA PLYWOOD for industry-leading shuttering plywood that consistently delivers superior performance, meeting all your structural needs with unmatched quality and reliability.
