

BROCHURE

Discover the finest plywood services with Jai Mata Plywood. Our premium products are designed for exceptional durability, reliability, and aesthetic appeal. Count on us for top-quality materials and outstanding service to fulfill all your plywood needs.

ABOUT US

Founded by Sh. Amritlal Gupta in 1962 as a bamboo trading business, our company evolved through decades of strategic expansion. In 1985, Mr. Rakesh Gupta joined and broadened the scope of operations, adding eucalyptus trading by 1995.

In 2008, the company ventured into wood trading, establishing Jaimata Plywood Company under the leadership of Satish and Sanjeev Gupta. The third generation, led by Shubham Gupta, introduced modernization and innovation, leading to the establishment of a Recon manufacturing plant in 2022.

Today, we are a trusted producer of high-quality plywood, block boards, flush doors, and shuttering ply, with a strong commitment to quality and lasting client relationships.

- Vision Plywood
- Interio Plywood

- **Premium Plywood**

- BWP Plywood
- MR Plywood

GUARANTEED PLYWOOD

"Jai Mata Plywood's Guaranteed Plywood stands as a testament to our commitment to quality and reliability. Crafted with precision and expertise, this plywood offers unmatched assurance, ensuring that your projects are built on a solid foundation. Whether for residential, commercial, or industrial use, our Guaranteed Plywood delivers consistent performance, durability, and peace of mind. Trust Jai Mata Plywood to provide you with the high-quality materials you need for your next endeavor."

- **FOREVER Plywood:** Forever ensures timeless durability with matt ply and both-side calibration.
- **VISION Plywood:** Vision provides unparalleled quality for interiors. With the Strength and Durability that follows Matt ply Configuration.
- **INTERIO Plywood:** Interio is perfect for furniture and cabinetry, elevating your living spaces with precision and excellence.

PREMIUM PLYWOOD

Our premium plywood conforms to ISI standards, ensuring it is both eco-friendly and durable. The BWP plywood is marine-grade, offering 100% waterproof protection and the ability to withstand wet and dry conditions. It is crafted using pure waterproof resin and a high-quality Gurjan face veneer. Our MR plywood is designed for interior use, offering moisture resistance and a visually appealing surface. Made from seasoned wood, it provides reliability and aesthetic appeal. Both BWP and MR plywood options are available in alternate and hardwood varieties to suit your specific needs.

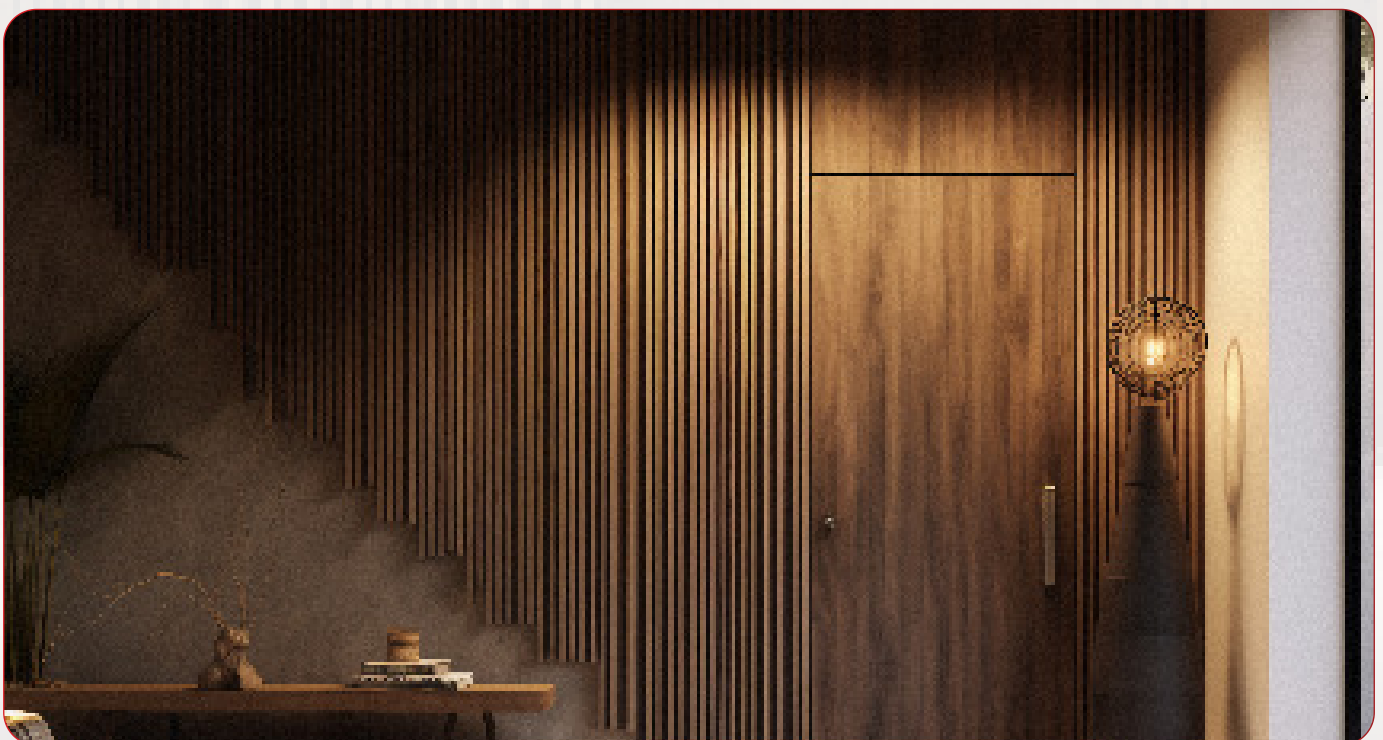

- **BWP Plywood:** BWP is marine-grade, 100% waterproof, and withstands wet & dry conditions with pure waterproof resin and gurjan face veneer.
- **MR Plywood:** MR plywood is interior-grade, moisture -resistant, made from seasoned wood, and has a good-looking surface.

FIRE RETARDANT PLYWOOD

Solitaries possess a compact structure designed to fend off any threats, whether it be pressure, heat, fire, or any other force. Introducing the latest innovation from Woodpro: Woodpro Fire Retardant Plywood. This product, a result of visionary research and development at Woodpro, provides extensive protection against fire, significantly reducing its impact compared to other products.

Treated with high-quality fire-retardant chemicals, this plywood slows the spread of fire across its surface. In the event of a mishap, Woodpro Fire Retardant Plywood retains its core structure longer than other building materials. It is ideal for use in kitchens, aerodromes, petrol pumps, multi-storey buildings, and laboratories, offering enhanced safety and reliability.

BLOCK BOARD

Experience the superior quality of JAI MATA PLYWOOD's premium block boards, meticulously crafted to provide exceptional durability and versatility. Our boards are engineered to withstand a variety of climatic conditions, ensuring they remain strong and resilient in any environment. Whether you're working on cabinetry, furniture, or interior wall paneling, our block boards offer unmatched strength and stability. Designed to meet the highest standards, JAI MATA PLYWOOD's block boards are your ideal choice for all interior projects, combining robustness with adaptability to deliver outstanding performance and longevity.

Features of Block Board:

- Durability
- Smooth Surface
- Lightweight
- Versatility
- Cost-Effective

Types of Block Board:

- **Pine Block Board**

Pine Block Board is an engineered wooden panel made from pine wood, created by bonding together layers or strips of pine using adhesive. Known for its durability and natural aesthetic, it features the warm, distinctive grain of pine wood. Versatile and lightweight, Pine Block Boards are used in a variety of applications, including furniture, cabinetry, and interior design. They offer a cost-effective and eco-friendly solution for both structural and decorative needs.

- Pine BWP
- Pine MR

- **Poplar Block Board**

Poplar Block Board is an engineered wooden panel constructed from poplar wood known for its lightweight and versatile properties. It is made by bonding together layers or strips of poplar using adhesive, resulting in a stable and durable board. Poplar Block Boards feature a smooth, uniform surface with a pale color and minimal grain pattern making them ideal for applications where a clean, modern look is desired.

They are commonly used in furniture making, cabinetry, and interior paneling.

Poplar Block Boards offer an economical and eco-friendly option, combining strength with ease of handling.

- Poplar BWP
- Poplar MR
